CS Tea Talk:

**March 3: CS Tea: Become a CS Major! 4-5pm, Olin 304/306/308.**
Are you a current sophomore who’s thinking about declaring a computer science major?
A current first-year student who’s thinking ahead to next year?
A current junior contemplating a double major in CS?
A current CS major who just wants to hang out?
Anyone else who's interested?
We'll have a few brief remarks of welcome, and then spend the hour mingling and chatting. This is the last tea talk in the term. More to come in the spring!
(Note: CS Tea events remain masks-required.)

**Winter Comps 2022 -- Bravo!!!** The first round of comps took place this past Thursday. 36 seniors presented a wide range of topics to a variety of viewers. We are happy to have had so many family members attend in-person and virtually.

**ON-CAMPUS OPPORTUNITIES:**

From The Carleton Career Center:

*Check Handshake* for information on upcoming CS related events.

*Implementation Consultant* with FAST Enterprises. Apply by March 16
*Implementation Intern* (Summer 2022) FAST Enterprises. **Apply by March 16**

**OFF-CAMPUS OPPORTUNITIES:**

*Software Engineer Intern Summer 2022: The Technology Policy Institute* is seeking a *software engineer intern*. This is a paid position. This position may be part time or full time. Due to the COVID-19 pandemic this position is fully remote. Qualified
applicants should submit a resume, unofficial transcript, a code sample (in any language, Python preferred), and a brief cover letter to nlovin@techpolicyinstitute.org. Principals only. Recruiters, please do not contact us. The Technology Policy Institute is an equal opportunity employer. More information is available at http://www.techpolicyinstitute.org/

NSF-funded REU: Computing for Health and Well-being, through the Computer Science Department at the University of Iowa. Apply now for this ten-week program which will run from May 23 to July 29, 2022 in-person (if the pandemic renders an in-person experience infeasible, we will hold the site virtually). Candidates from populations underrepresented in STEM fields or from academic institutions with limited research opportunities are encouraged to apply as well as students with disabilities.

NSF ’22 Summer Research Experience for Undergraduates (REU) at Montana State University, Bozeman “Research Experience in Cybersecurity Algorithms”
Students will gain research experience and improve communication and collaborative skills. We aim to provide students with the opportunity to develop a research question and experience writing for academic publications and presentations. Application Deadline: March 2. Check this link for details and application: http://www.bobcatsoftwarefactory.com/nsf-reu-2022 For more information, students are welcome to contact: Dr. Clemente Izurieta, Program Director, clemente.izurieta@montana.edu.

NSF Undergraduate Research (REU) Opportunity at Florida Atlantic University – Summer 22: The Institute for Sensing and Embedded Network Systems Engineering (I-Sense) hosts an intensive summer research program in sensing and smart systems. This nine-week program emphasizes training, mentoring and research, preparing students for graduate studies or careers in STEM disciplines. Application closes March 8, 2022.

Calendar of Upcoming Events:

Mar. 3: CS Tea: Become a CS Major
Mar. 11: Last day of Winter term classes
Mar. 12-13: Reading Days
Mar. 14-16: Final Exams
