CS Tea Talk:

**Oct. 13, Thursday, 3:30-4:30 in Olin 310: CS Summer Research:** Come listen to Carleton CS majors share their experiences about doing summer research in REU (research experience for undergraduates) programs at other institutions. Kai Johnson, Sam Hiken, Darryl York, and Thomas Zeng are leading this session of CS Tea. Stop by with your questions and enjoy cookies after our talk.

Department News:

**Welcome CS Dept. SDAs**
We are excited to introduce to you our 2022-23 Student Department Advisors, also known as SDAs. Darryl York, Quoc Nguyen, and Anna Neiman-Golden are here to answer your questions about courses, prerequisites, requirements, registration procedures, etc. They also organize social events such as fun get-togethers and the t-shirt design contest during spring term.

**Lovelace**
It’s time to sign up for Lovelace’s mentorship program! Lovelace mentorship program pairs younger-gender-minority-CS-interested students with experienced sophomores and junior/senior gender-minority-CS majors. Mentorship involves regular meetings for advice on anything Computer Science, to work on homework/problems, or anything else you want! It could also just be a fun way to make an upperclassman friend. That being said, if you are a sophomore, junior or senior and think you have enough experience to be a mentor, reach out to us and we can assign a mentee to you too. Please fill out [this Google Form](#) by the 5th week Friday (10/14) to sign up, and we will pair you with a mentor/mentee!

**Don’t Miss the 2022 Undergraduate and Research Symposium**
Friday, October 14, 4:30-6:30pm / Weitz Center for Creativity: The annual Undergraduate Research and Internship Symposium will feature more than 200 students presenting posters on the research or internship work they did over the
summer. Each student will present their poster in one of two 45-minute poster sessions: the first poster session will be from 4:30 until 5:15, then there will be a half-hour transition period between poster groups, and the second poster session will be from 5:45 until 6:30. Come support your peers in Computer Science and other areas of STEM!

**Opportunities:**

**Why Pursue A Doctorate? Demystifying the Graduate and Application Process** - A Virtual Bridge to the Doctorate Workshop for First-Generation, Pell-Eligible, and/or students from underrepresented communities seeking pathways to transform systems.

- **Date:** October 12th
- **Time:** 3:30-5:00pm
- **RSVP to Zoom Link:** [https://forms.gle/Ux7WbhGeTXSWhndJ9](https://forms.gle/Ux7WbhGeTXSWhndJ9)

Come learn about and discuss pursuing a doctorate degree or going to graduate school with a panel of doctoral students and postdoctoral associates in STEM and Social Sciences. Contact Tai ([Doxxx078@umn.edu](mailto:Doxxx078@umn.edu)) with any questions.

**MS program in Computational Operations Research at William & Mary**

- Merit-based financial aid available,
- 100% placement after graduation,
- Small class sizes with the opportunity to work closely with faculty,
- Students with backgrounds in applied mathematics, statistics, computer science, operations research, or economics. Here is a link to find out more about William & Mary’s MS program in Computational Operations Research: [https://www.wm.edu/as/mathematics/graduate/cor/about/index.php](https://www.wm.edu/as/mathematics/graduate/cor/about/index.php)
- If you have questions, e-mail Graduate Director, Prof. Rex Kincaid at [rrkinc@wm.edu](mailto:rrkinc@wm.edu).

**Bryan Richter ('20)** is offering assistance with coding interviews for CS students. Bryan works at Microsoft and has offered to help current students as they prepare for careers. He's happy to help with interview practice and advice, as well as more general job search advice. You can reach him at [bryanrichter@microsoft.com](mailto:bryanrichter@microsoft.com).

**Internship and Full-time opportunities with Foodsby**, a technology company that partners with restaurants and offices for lunch. Located in NE Minneapolis, Foodsby offers an in-office work environment. We love hiring recent grads with our goal to teach them necessary skills to build a meaningful career at Foodsby, while having plenty of career opportunities. We are a small tech company, which allows for employees to wear a lot of hats in a fast pace work environment. Foodsby also has available a 3 month internship program over the summer. Information provided by Khalid Hussain '22
From the Carleton Career Center:

Check Handshake for information on these and more upcoming CS related events and opportunities. Resume assistance is available at the Career Center.

Calendar of Upcoming Events:

Oct. 13:  **CS Tea Talk**, Carleton CS Majors share summer research experiences
         3:30pm, Olin 310
Oct. 14:  **2022 Undergraduate Internship & Research Symposium** 4:30-6:30 in
         Weitz Center
Oct. 15-17: Midterm Break
