Understand your costs

You'll likely see these terms during enrollment and throughout the year. Knowing how these costs work with your plan will help you avoid unexpected charges.

- **Premium** – how much you pay for your plan, usually taken out of your paycheck.
- **Deductible** – the amount you're responsible to pay for care before your plan helps cover costs, not including your premium.
- **Copay** – a set amount you pay each time you visit the doctor or get a prescription.
- **Coinsurance** – a percent of the bill you pay. Your plan covers the rest.
- **Out-of-pocket maximum** – the most you'll pay for covered care each year.
- **Summary of Benefits and Coverage (SBC)** – lists out the specific benefit costs for your plan.

Check out your extras

Your health plan does more than just process claims. Read on to learn more about some of the services, resources and discounts you have available to help you live your best life.

Copay/Deductible plan

Preventive care is covered 100%. And a flat cost lets you know what to expect to pay for other office visits.

What you'll pay

Copay

For something like an office visit to a specialist, chiropractor or therapist, you pay a set dollar amount. That's called a copay.

TIP: Be sure to get your yearly recommended checkup, vaccines and screenings. They're included as part of your plan.

Deductible, then coinsurance

For things like X-rays or a hospital stay, you cover the cost up to a certain amount – your deductible.

Once you hit that amount, you only pay a portion of the bill. That's called coinsurance. For example, you might pay 20% and your plan would pay the other 80%.

Out-of-pocket maximum

After a limit, known as your out-of-pocket maximum, all in-network care is paid for by your health plan.

Plan highlights

Your plan pays the majority of the bill for primary, convenience, online and specialty care, as well as prescription drugs. You'll easily know your share of the cost – your copays are listed on your member ID card.

How to get more info

- **See plan details** in your **Summary of Benefits and Coverage (SBC)** in your enrollment materials
- **Call us** with questions at **952-883-5000 or 800-883-2177**

Your plan helps pay for

- Preventive care (no cost to you)
- Convenience care and telemedicine services
- Specialty care (no referrals needed)
- Prescriptions

HSA Plus plan

Set aside pretax money in a health savings account (HSA) to pay medical bills. Plus, get lower costs on select medicines and care.

How to get more info

- **See plan details** in your **Summary of Benefits and Coverage (SBC)** in your enrollment materials
- **Call us** with questions at **952-883-5000 or 800-883-2177**

TIP: Put some of the money you're saving on premiums into your HSA on your own or through direct deposit.

What you'll pay

Deductible, then coinsurance

This plan has a deductible – a set amount you pay before your plan helps cover costs for most kinds of care. After that, you may pay coinsurance, which is a percent of the bill.

Out-of-pocket maximum

Once you reach the max, your plan pays for in-network care the rest of the year.

What your plan pays for

Even before you reach your deductible, your plan helps cover the things you need most to stay healthy.

In-network preventive care

Your plan pays 100% of the bill.

Preventive drugs

For prescriptions on our HSA Enhanced preventive drug list, your plan pays some and you'll pay a set amount (a copay). See the list at healthpartners.com/enhancedhsa.

Preventive care for chronic conditions

Your plan helps pay for certain services and equipment, such as lab work to monitor diabetes or liver disease.

EmpowerSM HSA plan highlights

This plan allows you to contribute money to an HSA before taxes are taken out. Add up what you spent on health care expenses last year to get an idea of how much to put in next year.

Use your HSA to pay for things like:

- Doctor visits and lab fees
- Prescription and select over-the-counter medicines
- Dental care and braces
- Vision care and LASIK surgery

HSA money can:

- Earn interest or be invested
- Pay for medical expenses before or after you reach your deductible
- Stay with you year after year, even if you switch jobs – you own the account

Our approach to protecting personal information

HealthPartners® complies with all applicable laws regarding privacy of health and other information about our members and former members. When needed, we get consent or authorization from our members (or an authorized member representative when the member is unable to give consent or authorization) for release of personal information. We give members access to their own information consistent with applicable law and standards. Our policies and practices support compliant, appropriate and effective use of information, internally and externally, and enable us to serve and improve the health of our members, our patients and the community, while being sensitive to privacy. For a copy of our Notice of Privacy Practices, visit our website or call Member Services.

Summary of utilization management programs for medical plans

Our utilization management programs help ensure effective, accessible and high-quality health care. These programs are based on the most up-to-date medical evidence to evaluate appropriate levels of care and establish guidelines for medical practices. Our programs include activities to reduce the underuse, overuse and misuse of health services.

THESE PROGRAMS INCLUDE:

- Progression of care review and care coordination to support safe, timely care and transition from the hospital.
- Outpatient case management to provide member support and coordination of care.
- Evidence-based coverage policy criteria for certain kinds of care.
- Prior authorization of select services – we require prior approval for a small number of services and procedures. For a complete list, visit our website or call Member Services.

Appropriate use and coverage of prescription medicines for medical plans

We provide coverage for medicines that are safe, high-quality and cost-effective.

TO HELP US DO THIS, WE USE:

- A formulary (drug list). These prescription medicines are continually reviewed and approved for coverage based on quality, safety, effectiveness and value.
- A free, confidential one-on-one appointment (in person or over the phone) with an experienced clinical pharmacist. Our Medication Therapy Management (MTM) program helps members who use many different medicines get the results they need.
- An opioid management program to support members in managing their pain.
- A transition program that provides a seamless move to our formulary. We allow coverage for a first-time fill of a qualifying non-preferred medicine within the first three months of becoming a member.

The formulary is available at healthpartners.com/formulary, along with information on how medicines are reviewed, the criteria used to determine which medicines are added to the list and more. You may also get this information from Member Services.

Important information on provider reimbursement

Our goal in reimbursing providers is to provide affordable care for our members while encouraging quality care through best care practices and rewarding providers for meeting the needs of our members. Several different types of reimbursement arrangements are used with providers. All are designed to achieve that goal. Check with your individual provider to find out how they are paid.

PROVIDER REIMBURSEMENT INFORMATION FOR MEDICAL PLANS

- **Fee-for-service** – Some providers are paid on a “fee-for-service” basis, which means that the health plan pays the provider a certain set amount that corresponds to each type of service furnished by the provider.
- **Discount** – Some providers are paid on a “discount” basis, which means that when a provider sends us a bill, we have negotiated a reduced rate on behalf of our members. We pay a predetermined percentage of the total bill for services.
- **Case rate** – Sometimes we have “case rate” arrangements with providers, which means that for a selected set of services the provider receives a set fee, or a “case rate,” for services needed up to an agreed upon maximum amount of services for a designated period of time. Alternatively, we may pay a “case rate” to a provider for all of the selected set of services needed during an agreed upon period of time.
- **Reconciliation** – Sometimes we have withhold arrangements with providers, which means that a portion of the provider’s payment is set aside until the end of the year. The year-end reconciliation can happen in a variety of ways.
- **Withhold Arrangements** – Sometimes we use withhold arrangements as part of provider payments which means that a portion of the provider’s payment is set aside until the end of the year. The year-end reconciliation can happen in a variety of ways.
- **Diagnosis** – Some providers — usually hospitals — are paid on the basis of the diagnosis that they are treating; in other words, they are paid a set fee to treat certain kinds of conditions. Sometimes we pay hospitals and other institutional providers a set fee, or “per diem,” according to the number of days the patient spent in the facility.
- **APCs** – Some providers — usually hospitals — are paid according to Ambulatory Payment Classifications (APCs) for outpatient services. This means that we have negotiated a payment level based on the resources and intensity of the services provided. In other words, hospitals are paid a set fee for certain kinds of services and that set fee is based on the resources utilized to provide that service.
- **Total Cost of Care** – Some providers — usually primary care medical groups — are paid based on how well they manage the total cost of care associated with a patient, as well as how well they manage the patient experience and the quality of care provided.

Conducting medical necessity reviews

HealthPartners conducts medical necessity reviews for select services. These reviews ensure our members receive safe and effective care that aligns with the coverage outlined in the member’s contract. Medical necessity reviews can be conducted pre-service, before the service takes place; post-service, after the service has happened; or concurrently, while the service is taking place. Contracted providers are responsible for obtaining prior authorization from the health plan when it is required. Services that require prior authorization are listed on our website. Prior authorization is not required for emergency services. HealthPartners will inform both you and your provider of the outcome of our review.

This plan may not cover all your health care expenses. Read your plan materials carefully to determine which expenses are covered. For details about benefits and services, go to [healthpartners.com](https://www.healthpartners.com) or call Member Services at **952-883-5000** or **800-883-2177**.
