Tunnel: Create a Profile

The screenshot displays the Carleton Tunnel website interface. On the left, a dark blue navigation sidebar contains the following menu items: Home, Jobs & Internships, Profile (highlighted with a red box), Documents, Events, Interviews, Employers, Resources, Calendar, and My Account. The main content area features a search bar at the top right and a central section titled "Find a career you'll love!" with a briefcase icon. Below this, a message states: "Tell us your career interests and we'll show jobs, events and campus interviews personalized just for you. This will take only 2 minutes." A blue "GET STARTED" button is positioned below the message. To the right of the main content, there are two side panels. The top panel is titled "Meet with a Counselor" and lists "ONLINE APPOINTMENT SCHEDULING Completed Profile Required". The bottom panel is titled "Upcoming Events" and lists "Employer/Grad School Info Sessions" and "30 Minutes Sign-up with an Alum Workshops". At the bottom of the page, a "Jobs For You" section is visible, showing two job recommendations: "Global Impact Corps: Global Health Volunteer Abroad Opportunity" and "Medical Scribe Emergency Care Consultants Minneapolis/St. Paul, Minnesota".

Tunnel: Find Jobs and Internships

The screenshot displays the Carleton Tunnel website interface. At the top left is the Carleton logo, a stylized 'C' with radiating lines, and the word 'Carleton' in a serif font. To the right is a search bar with a magnifying glass icon and the text 'Search'. Below the logo is a dark blue navigation menu with white text and icons. The menu items are: Home (with a house icon), Jobs & Internships (with a briefcase icon and a dropdown arrow, highlighted with a red box), TheTunnel Job & Internship Postings (Carleton postings) (with a right-pointing arrow), Recommended Jobs (with a right-pointing arrow), My Job Applications (with a right-pointing arrow), Fraudulent Job Postings Tips (with a right-pointing arrow), Vault Career Intelligence (with a right-pointing arrow), Profile (with a person icon), and Documents (with a document icon and a dropdown arrow). The main content area is white and features a large illustration of a briefcase with three small hearts above it. Below the illustration is the text 'Find a career you'll love!' followed by 'Tell us your career interests and we'll show jobs, events and campus opportunities that are right for you.' and 'This will take only 2 minutes.' A blue button with the text 'GET STARTED' is positioned below this text. At the bottom of the main content area, the text 'Jobs For You' is visible.

Tunnel: Find Jobs and Internships

The screenshot displays the Carleton Tunnel website interface. On the left is a dark blue navigation sidebar with icons and text for Home, Jobs & Internships, TheTunnel Job & Internship Postings, Recommended Jobs, My Job Applications, Fraudulent Job Postings Tips, Vault Career Intelligence, Profile, Documents, Events, Interviews, and Employers. The main content area has a white background with the Carleton logo at the top left. Below the logo is a breadcrumb trail: Home / Jobs & Internships / Recommended Jobs. The page title is "Job Postings". A horizontal menu below the title contains five tabs: JOBS, RECOMMENDED JOBS, MY FAVORITES, APPLICATIONS, and EXPIRED JOBS. The "RECOMMENDED JOBS" tab is highlighted with a red border. Below the tabs, it says "Showing 1-20 of 82 results". The job listings are as follows:

Logo	Job Title	Details	Expiration Date	Star
U	Global Impact Corps: Global Health Volunteer Abroad Opportunity	Internship, Volunteer Unite For Sight	May 31	★
	Medical Scribe	Full Time: Entry Level, Full Time: Experienced, Part Time/Temporary, Pre-Professional Training Emergency Care Consultants - Minneapolis/St.Paul, Minnesota	Aug 30	★
U	Urban Adamah 2017 Fellowship	Internship, Year(s) of Service/Fellowship Urban Adamah - Berkeley, California	Jan 3	★
G	STUDENT SUMMER RESEARCH FELLOW	Internship, Part Time/Temporary, Summer Gundersen Medical Foundation - La Crosse, Wisconsin	Nov 8	★

Tunnel: Find Jobs and Internships

The screenshot shows the Carleton Tunnel website interface. On the left is a dark blue navigation sidebar with icons and text for Home, Jobs & Internships, TheTunnel Job & Internship Postings (Carleton postings), Recommended Jobs, My Job Applications, Fraudulent Job Postings Tips, Vault Career Intelligence, Profile, Documents, Events, Interviews, and Employers. The main content area has a white header with the Carleton logo, a search bar, and a notification bell. Below the header is a breadcrumb trail: Home / Jobs & Internships / Recommended Jobs / STUDENT SUMMER RESEARCH ... The main job listing is for 'STUDENT SUMMER RESEARCH FELLOW' by 'Gundersen Medical Foundation - La Crosse, Wisconsin'. It includes a 'G' logo, the position type 'Internship, Part Time/Temporary, Summer', and a '+ FOLLOW' button. The 'Position Type' section repeats the text 'Internship, Part Time/Temporary, Summer'. The 'Description' section begins with 'The Student Summer Research Fellow will develop an understanding of medical research in a community-based clinical setting through a 13-week summer internship. Students will utilize commonly used experimental designs for research studies and gain insight in disease processes, observation of diagnostic and treatment interventions. In collaboration with a Principal Investigator (PI), research mentor, and biostatistician, the student will work on a research project, including but not limited to data collection through review of patient medical records, data entry, analysis, and potentially publication.' On the right side of the job listing, a red box highlights a 'How to Apply' section containing the URL <http://www.gundersenhealth.org/careers/job-opportunities/>. Below this is a 'Related Resources' section.

Contacting Carleton Alumni

Most Carleton alums are friendly, helpful, and eager to answer questions you might have about different professions, industries, cities, or what it's like to be a Carleton graduate in the world outside of Northfield. Here's how alums can help you:

- **Helpful Advice** - Have questions about a particular job or career field? Talk to an alum about their job to see if it's right for you! Ask questions about employers, cities, their job, and how Carleton helped prepare them for it.
- **Jobs and Internships** - Alumni are great resources for researching and finding job or internship opportunities. They can offer information, ideas, advice, and maybe even names of other people to contact. However — and this is the cardinal rule — **Don't Ask Alums For A Job!** It puts them in an awkward spot if they can't deliver and, furthermore, if they get inundated they are less likely to help other students.

Want to get in touch with an alum in a field you're interested in? Go to the [online directory](#) and you will be able to search by major, company, career,

Research Opportunities at Carleton

Every summer the faculty in the Chemistry Department offer research opportunities for undergraduate colleagues. Note that these summer research positions are only made available to Carleton students. A summer stipend is paid to the undergraduate research colleague at the college's going rate for a ten-week period. These stipends are funded through individual grants that faculty have obtained to carry out their research or through general grants made to the college that support student-faculty research such as the Howard Hughes Medical Institute grant.

We have instituted an application process to make sure everyone who is interested in research comes to the attention of the faculty. There are always more applicants than positions on campus, so all students are encouraged to apply for research positions off campus as well.

An overview of the application process for chemistry summer research at Carleton including application procedures and specifics on research opportunities, can be found [here](#). Our application process begins with our Summer Research Recruiting Seminar

At the seminar, faculty planning on hiring student research colleagues will provide brief descriptions of their research.

Kolenkow-Reitz Fellowship

Purpose: The Kolenkow-Reitz fellowship provides research support for Carleton students working with non-Carleton science and math faculty at another institution during the summer or over winter break. These research opportunities are intended to encourage Carleton students' development as scientists and their exploration of mathematics, statistics, and the sciences as a possible career.

Eligibility: Carleton students with a minimum GPA of 3.0 are eligible to apply for this funding. Before applying, students should have already contacted and discussed the nature and timing of their project with the person they are planning to work with as well as a faculty member at Carleton who can vouch for the project and its alignment with your professional development goals. Because the intent of the fellowship is exploration in STEM fields, priority is given to students who have completed coursework related to the proposed research, but who have not yet had a significant funded research experience (7 or more weeks). Please note that students previously supported through the Kolenkow-Reitz Fund (winter break or summer) are less likely to receive funding, but are still eligible to apply.

Sometimes, the host institution has funds available to support summer student research through REU (Research Experience for Undergraduates) or similar programs. If you are eligible, it is a good strategy to apply for funding through an REU at the host institution (which may also include funding for room and board in addition to stipend) as well as applying for K-R funding through Carleton. Having applied to an REU program through the host institution will be viewed positively, and will not decrease your chances of receiving funding through K-R if the REU program does not provide support. Please talk to your advisor or the faculty member who you're consulting in your application if you would like help finding out if the host institution has REU funds available.

Support: Awards are for \$470 per week of full time work, for up to 10 weeks (summer) or 3 weeks (winter break). Additional expenses up to \$500 (\$150 for winter break) can be requested to help defray travel or research supply expenses. Note that students must work full time on the project during the funding period. That is, *students may not accept any other concurrent jobs.*

Some of the application questions include: Carleton transcript, project title, project advisor email and the nature and extent of your communication with them, description of project, personal statement (including your educational and professional development goals for this research experience), previous research experience and funding sources, dates of work, funds requested.

Winter Break Application Deadline: October

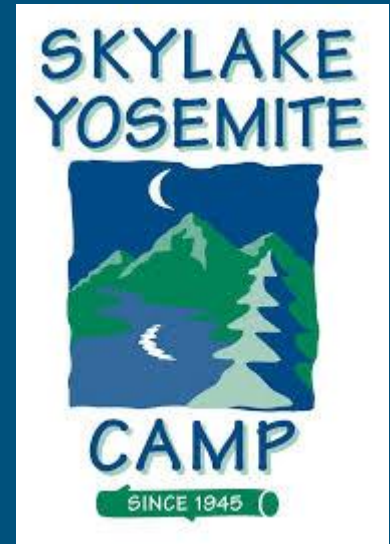

Summer Break Application Deadline: March

Or You Can Train to Become an EMT!

What's Involved in
Becoming an EMT?

1. Training
2. Licensure
3. Applying for a job

EMT Training

- Hands on Experience
- Training at Carleton:
 - a. Northfield Hospital
 - Training courses during spring term
 - Contact: smithj@northfieldhospital.org
 - b. Carleton EMT club
 - Contact: kanj@carleton.edu or ekanayakej@carleton.edu
 - c. Online and other accredited schools

<https://www.rapidsafety.com/>

Certifications Required

- Vary state to state
- Best: NREMT
 - Take a practical and written test
 - Transferred to most states easily.

Jobs as an EMT

- Many job opportunities
- Volunteer
 - Local firehouse
- Related jobs
 - Ex: ski patrol, camp counselor
- ~\$16 an hour
- Easy to get your first job
- High upfront cost (~\$1,000 – \$3,000)
 - Earn back through work
