

# RESIDENCE HALL HEATING HOW-TO

COURTESY OF ENERGY CLUB

## Davis

- Thermostat controls a fan coil unit behind the metal panel in your room
- Temperature range is 60°F (bottom) to 70°F (top)
- Fan will turn on if room needs more heat; to manually turn off the fan, hold down the power button on the thermostat (this will also turn off heat)

Hold down this button to turn off the fan!

## Tips to stay cozy:

- It will take a few minutes for the heat to start working . . . be patient!
- Closing the curtains/blinds can provide extra insulation
- If your room is too hot, use these instructions to turn your heat down (DON'T open the window!)
