The easiest way to contribute to the Cupboard is via our online platform, which allows students to access the facility anonymously. The program solicits feedback to make adjustments to desired food items, and students can access the facility anonymously.

Supporting Students

The Carleton Cupboard opens November 22.

Campus News

The Student Life and Housing Plan moves into the final phase of implementation. Adjustments to the plan prioritize an equitable living experience on campus and a better facility for students. If students have already received a COVID-19 booster or flu vaccine, they should contact the clinic to receive a vaccine card. Carleton recently concluded a series of clinic gatherings to ensure students are aware of vaccination options.

Career Building

The Career Center is available for virtual career chats and support over the break. Students can reach out to receive our future emails.

Supporting Students

The Global Climate Justice Program has taken a variety of approaches to supporting the work of students. Staff who are making climate and sustainability a central to their work through research, advocacy, and conversations with a panel of Carleton alumni and students. The global climate crisis demands a variety of solutions.
