Students vote for their favorite coffee shop at one of the Maize & Blue Daize events

Update from the Dean

Dear Parents and Families,

I hope the spring has brought you warmer weather and sunnier skies. The sun is attempting to be consistent in Northfield.

This term, and following the recommendation of the
Student Mental Health and Wellness Working Group, Carleton has partnered with TimelyCare to provide students with virtual medical and counseling care from anywhere in the United States, at no cost. Students can now visit timelycare.com/carleton or download the TimelyCare app to register with their Carleton username and password, and start visits from any web-enabled device — smartphone, tablet, laptop, or desktop. The partnership expands Carleton’s current on-campus Student Health and Counseling (SHAC) resources, supporting the College’s ongoing efforts to improve student well-being and engagement. Visit SHAC’s website to learn more about TimelyCare’s services, or reach out to shac@carleton.edu with questions.

TimelyCare’s services include:

- 24/7 on-demand and appointment-based medical care
- 24/7 on-demand mental health and emotional support
- Appointment-based mental health counseling (up to 12 sessions each academic year)
- Psychiatric support (available by direct referral from a SHAC provider)
- Digital self-care content, including access to meditation and yoga sessions
- Health coaching

— Vice President for Student Life and Dean of Students Carolyn Livingston

Campus News

Over finals and through spring break, the Offices of Admissions and Student Financial Aid staff were putting the finishing touches on selecting the newest members of Carleton’s Class of 2028. The class represents over 18 months of combined efforts by staff, faculty, students, tour guides, admissions fellows, and alumni in recruiting, nurturing, and hosting prospective students on campus, through virtual events, at school visits, and college fairs. Admissions decisions were released to anxious and eager Regular Decision students on Friday, March 22, and we can’t wait to learn more about who chooses Carleton!

Selected from 7,869 applications — the third largest applicant pool in Carleton’s history — the 1,405 students admitted to the class, including early decision, represent various domestic and global experiences and a rich array of talents, academic interests, and perspectives, which will contribute to Carleton’s community in many ways. Students were admitted from 49 states, the District of
Columbia, and 44 countries. They also attend 994 different high schools, with 56% attending a public high school. Admitted students are 54% female and 46% male (legal sex). First-generation students, which include students whose parents do not have four-year college degrees, represent 13% of the class. We also estimate that 16% of admitted students qualify for Pell grants. This is the first class to be admitted to Carleton after the U.S. Supreme Court banned the consideration of a student’s racial classification in college admissions, and data pertaining to the racial demographics of the class will not be available until this summer.

— Vice President and Dean of Admissions and Financial Aid Art Rodriguez ’96

Knights sports highlights

Amelia Asfaw ’25 picked up her second MIAC Women's Tennis Athlete of the Week award in a row as the Knights defeated nationally-ranked and previously unbeaten Bethel, while Baiyun Jung ’25 took home the award for the week on the men's side.

Soren Kaster ’27 was declared MIAC Outdoor Track & Field Athlete of the Week for posting the fifth-best decathlon score in the nation at the Klein/Nwaba Combined Events hosted by Westmont College. The 15-entrant field included 2020 Olympic champion Damian Warner and multiple former NCAA Division I athletes.

The baseball Knights completed a dominating doubleheader sweep of Bethel on April 6. Sam Chutkow ’27 tossed a complete game for the win in the opener, and Ryan Chang ’27 finished the day a combined 5-for-7 with two home runs, including a grand slam, in addition to pitching the final 4 innings of the game two win.

Find more headlines, results, and the schedule for all varsity sports on the Carleton Knights website. You can find streaming coverage of Carleton sports on the MIAC Sports Network.

Annual Poetry Without Borders event welcoming student submissions by April 24
Students are encouraged to be part of this annual event that showcases different languages and cultures to students, faculty, and staff, and brings together poetry-loving people with different backgrounds, passions, majors, and research fields.

Students can perform in a language that they study/ied, one that they speak with their family and friends, one that they just love to read out loud, or one that they wish would be spoken more. The event will be held May 8, and submissions are due by April 24. Learn more on the Humanities Center website.

Perlman Center for Learning and Teaching: Recent Events

One reason for the strength of Carleton's faculty is the dedication to constant learning and improvement, much of which is facilitated by the Perlman Center for Learning and Teaching, otherwise known as the LTC. The LTC coordinates programs for new and experienced faculty, circulates new information about teaching theories and strategies, and helps to identify problems and suggest solutions for classroom practice.

Following up on a book group and discussion during winter term on Neurodiversity and Education, LTC recently hosted a panel of students to share their perspectives and experiences in the classroom.
