

Deadline Extended!

We are still accepting applications for the Climate Change and Human Health in Ethiopia OCS Program in Winter Break 2022!

You can still apply through May 3! We would love to answer any questions you may have about this program. All current and future applicants are invited to join us for a short demonstration of the cookstoves that are at the center of our research project. You'll get a chance to taste some good food and also to learn about the types of projects you can design and carry out as part of this program!

The picture on the right shows Seblua Abeba, one of our coworkers in Addis Ababa, cooking Miser Wot (spicy lentils) on one of our cookstoves. We will make some at this event for you to try!

When: Monday, April 25, 6:15 – 7pm. Come when you can.

Where: The area between Arena Theater and the Concert Hall

Please bring a clean green to-go box to use as a plate!
